

LINK GOVERNORS

1. The Link Governor scheme is a means by which Governors and Professional Teaching and Support Staff with Key Responsibilities for curriculum, school leadership or policies can work together in a mutually supportive way.
2. Governors will thus be better informed about the day-to-day working of the School. This will assist their forward planning, identification of priorities and target setting, and ensure that their discussions are based on a clear understanding, and hence appreciation, of the School's needs and current constraints.
3. It is expected that non-staff link governors will make a formal timetabled full or half day visit at least every 2 years. These visits should major on link interests but also give a general view on school life. Additionally, Leadership Team links have annual meetings with their LT member: see Para 3 of Annex A.
4. Guidance for link governors is at Annex A.

Current Link Governors (* indicate a legal requirement for the policy)

Governor	Policy Link	School/ Faculty Link
