

CURRICULUM 2020-21

1. PREAMBLE

It has always been the aim of the School to provide a broadly based academic curriculum for pupils throughout Years 7 to 13. The Curriculum will be delivered within the context of the School Mission Statement. This document was agreed by governors:

2. CURRICULUM INTENT

The curriculum is designed so it:

- is relevant, appropriate and engaging for students
- offers breadth, balance and coherence for all
- permits continuity and progression, within and across year groups
- provides equality of opportunity for all students, promoting the development of inclusive learning opportunities
- provides an opportunity to celebrate and recognise achievement and success in academic subjects and in extra-curricular activities
- promotes students' spiritual, moral, cultural and social development
- helps to develop an understanding of personal, social and health issues such as drugs, sex and relationships and the importance of a healthy lifestyle
- helps each student gain a sense of self-worth, independence of thought and develop a questioning approach which challenges prejudice
- *develops the students' understanding of Britain's place in the world, through its history, and how this perception has changed through time.*
- *allows students' to gain an understanding of the importance of living in a democratic society, of their part in that society and the legacy of the past*
- aims to develop students as flexible and independent learners
- provides careers advice and guidance throughout a student's time at School
- permits the development of ICT, numeracy and literacy across the curriculum
- enables all students to meet their full academic potential
- encourages students to take part in a wealth of extra-curricular and enrichment opportunities.

Notes:

If there is a smaller cohort in any subject, the number of periods maybe reduced.

B. Enrichment (2 periods per week) [see Appendix A]

The enrichment options provide a range of courses and skills to broaden the students' experience. This will incorporate careers & higher education guidance; including Oxbridge preparation, a personal development programme for students (with PHSE, Study Skills & Wellbeing sessions) and conference days for the whole year group to support these activities. The Head Master's Lectures usually take place during this time but may occur at other points in the week due to the availability of the speakers – many being high profile national figures.

C. Games and Activities (4 periods per week)

The Wednesday games and activities programme consists of a number of options some of which do not involve physical activity ie Community Service.

D. Chinese (4 periods per week)

A GCSE course is offered outside Curriculum time to build on the work undertaken in the Middle School.

YEAR 13

A. Main Subjects: Normally have 8 taught periods per week plus periods allocated specifically for independent study in the subject. Students study their subjects in three or four blocks, depending on the number of subjects being taken, and have their independent study & self-supported study allocation in those blocks without a subject.

B. Games and Activities [4 periods per week]

The Wednesday games and activities programme consists of a number of options, some of which do not involve physical activity.

C. Chinese [4 periods per week]

A GCSE course is offered outside Curriculum time to build on the work undertaken in Year 12.

N.B. – A graphical representation of this curriculum from MAH is included in appendix B.

4. CURRICULUM IMPACT

The impact of the curriculum is assessed by considering:

- the external examination results at both GCSE and A Level, including the numbers gaining top grades in a wide variety of subjects.
- the proportion of students who are able to choose the courses they want to at GCSE and at A Level.
- the retention of students from Year 11 into the Sixth Form.
- the destinations of our leavers at Year 13.
- the students' emotional, social and spiritual development, as they progress through the school and the ways in which the school engages with them with in these areas, so they become self-confident members of an increasingly complex society both in modern Britain and the world.
- the range and variety of extra-curricular and enrichment activities and students' participation in them.
