Prior to testing, Parents are requested to inform the school of any special needs which their sons have and indicate how these needs are currently being met. Please give details of any circumstances which you feel may affect your son's performance (eg. special educational needs, medical conditions etc). Where appropriate, please supply supporting evidence of special needs that is less than two years old at the time of the test (eg. reports from Educational Psychologist, Occupational Therapist, Child and Family Sensory Support Team etc).

Please inform us if English is your son's second language, and he receives support in it at school. Please specify his first language. Please also provide evidence as to how long he has been resident within the UK as well as evidence of the nationality of both parents.

All information and accompanying documentation that you provide, will be used by the School to make an assessment as to whether special access arrangements are appropriate for your son. As part of this consultation process, the School may contact your son's current School, or any other medical or educational professional that we consider necessary. By signing this form, parents implicitly consent to the School conducting this consultation process. If a boy's poor performance in the test is directly attributed to his special circumstances, and the School has not been informed prior to the test, it is not possible for those circumstances to be taken into consideration retrospectively.

To the best of my knowledge, the information I have given is correct and I will advise the School in writing of any changes of information to this form. I understand that providing incorrect or misleading information could lead to the withdrawal of the offer of a place.
