Scrabble

Take Two – A variation of Scrabble using the tiles and no board. 2-4 players each take 5 tiles each from the pile of upturned letters. Each player attempts to use all their letters to make their own combination of words on the table in front of them. If you manage to do so you call 'Take Two' and all players take 2 more letters each from the pile and try to add, change or rearrange their letters to have a evergrowing matrix of words in front of them. The winner is the first person to have a completed crossword of words in front of them. You can score it so the losing players tally up the value of tiles they have left. First player to 50 for example loses and ends the game, lowest total wins.
